AUGMENTED AND VIRTUAL REALITY FOR ACADEMIC AND INDUSTRY TRAINING SOLUTIONS

KNOWLEDGE BASE
WHAT IS IT?

EON Reality is the world leader in Augmented and Virtual Reality academic and industry training solutions. We believe that knowledge is a human right and should be available, accessible, and affordable for every human on the planet.

EON Reality Solution Offering include:

Designed to bring Augmented and Virtual Reality solutions to as many people around the world as possible, EON-XR removes the obstacles that often come with incorporating AR and VR into an academic or industrial environment. Through EON-XR, educators, trainers, employers, and other users are able to create interactive and immersive AR and VR lessons without needing any coding or advanced technological knowledge. The lessons can then be distributed to their audience of students, trainees, employees, or the general public for consumption on common devices ranging from smartphones to laptops to publicly available headsets. EON-XR is preparing millions of students, employees, and citizens for the present and future while both replacing and aiding traditional training and teaching methods in dozens of countries around the world.
