

SUPERIOR SOUND RECORDING GEAR

KNOWLEDGE BASE

WHAT IS IT?

Mackie is a live sound and recording gear brand offering affordable products, for everyone from beginners to professionals, founded on the idea that good pro audio gear wasn't just for the deep pockets, huge production companies, and fancy studios. With over 30 years in the industry, Mackie is still making gear that sticks to the original vision; to make pro-quality gear for real people, real artists, and real engineers that don't buy gear because it is expensive, but because it's good. Mackie is a subsidiary of LOUD Audio, LLC.

Questions

1. What is the application
2. How many channels or speakers needed?
3. Powered or unpowered
