# ALL IN ONE SHARED STORAGE SYSTEM

## KNOWLEDGE BASE

### WHAT IS IT?

SNS is Complete Shared Storage Systems All in One Box. The EVO shared storage workflow server gives professional media creation teams total flexibility with built-in SAN and NAS, more connectivity, more storage capacity, enhanced features like automatic project file locking, project/bin sharing, proxy previews, asset tagging, cloud integration, RAID 5/6, LDAP/AD, and easy setup.

### Questions

1. Do you handle any Video content in your department?
2. Who is responsible for video content production?
3. Is it in house or outsourced?
4. Do you have more than one department that handles video?
5. What keeps you up at night when you think about video on your network?
6. What is your plan for archiving content?
7. What are the primary applications your team uses?
8. Where do you store your primary video content?
9. Do you use the cloud?
10. Do you have an existing storage solution?
11. What do you like about it?
12. Does your team use Davinci, Avid, Protools, Final Cut pro, Premiere, or other Adobe Apps?
13. Do you have a NewTek TriCaster or Ross Video Switcher?

## EVO for Everyone

Every EVO shared storage workflow server includes unlimited licenses of ShareBrowser media asset management and enhanced features like Slingshot automation, cloud integration, and remote editing with Nomad. Expansion options are available to add capacity or increase the number of connectivity ports for most units.

For any team and any workflow, there's an EVO for everyone.

### EVO Prodigy Desktop

Small, quiet, and powerful—an EVO Prodigy Desktop is the perfect shared storage solution for compressed workflows, mobile use, and studios without rack space.

### EVO 8 Bay

Great for small to medium-sized teams, the EVO 8 Bay accommodates up to 24 drives per system for high performance shared storage workflows.

### EVO 16 Bay

Our most popular system, the EVO 16 Bay provides scalable shared storage with Petabyte expandability for large teams and demanding workflows.
