

SOFTWARE DEFINED SOLUTIONS FOR VISUALIZATION & CONTROL

KNOWLEDGE BASE

WHAT IS IT?

Userful is a new CDW partner providing software defined solutions for visualization and control in operation centers & control rooms. Userful delivers an easy-to-use interface putting operators in full control for situational awareness while running on the network and IT infrastructure that is secure, scalable, and requires only commercially available off-the-shelf hardware.

Questions

1. Do you need a video wall or large format display?
2. What is your video wall application?
3. Do you have a video wall that needs upgrades or retrofitting?
4. Is this going to be a multi-building / location system?
5. Do you need digital signage or need to deliver content external and or internally?
6. Have you established a project budget?
